

HISTORY OF THE MUNICIPAL COUNCIL OF LEZHA

It is proven by now that Lezha was since the post roman period a Municipality with the name "Lissuss". By being a separate administrative unit, the district of Lezha had its own organization during the years 1945-1990. The government during this time was organized based on the Executive Committee and the City's Popular Council.

After the democratic evolution of the nineties there were held the first pluralist elections and municipalities and communes were formed.
